

```
two_gis_test::command  
_handler::CountOccurrencesWord  
Command::execute
```

```
graph LR; A["two_gis_test::command  
_handler::CountOccurrencesWord  
Command::execute"] --> B["two_gis_test::service  
::isValidFile"]
```

A diagram showing a call from a command handler to a service method. On the left, a gray box contains the text: two_gis_test::command, _handler::CountOccurrencesWord, and Command::execute. A blue arrow points from this box to a white box on the right. The white box contains the text: two_gis_test::service and ::isValidFile.

```
two_gis_test::service  
::isValidFile
```
